## What's New for 2016

As part of the 2016 model changeover, ARGO has introduced a number of exciting new vehicle features and models:

### **ARGO Dual Beadlock Solution for More Ride Comfort**

ARGO's revolutionary dual beadlock system increases vehicle suspension which results in a smoother, more comfortable ride in challenging conditions. This new system allows users to operate with tire pressure as low as 1 PSI. The beadlock upgrade has a number of rider friendly benefits including:

- Reduced shock loading to the vehicle in demanding environments
- Optimum speed over rough terrain
- Safe operation even with a fully deflated tire, reducing the need to change flat tires in the field
- Reduced driver fatigue allowing them to be more productive while on the job
- Reversible rims allow wheels to sit closer or further out from the vehicle, simplifying track installation
- 30% stronger axles for added durability of the vehicle

The new ARGO dual beadlock solution is available as a build option on all 8x8 models (except XT series).

### **State-of-the Art Anti Corrosion Paint System**

ARGO has partnered with Henkel, a leading worldwide manufacturer of functional coatings to provide Bonderite(R) anti-corrosion paint solutions on all new vehicles. This cutting edge waterborne system provides uniform coverage of all metal parts, even in difficult-to-reach areas, and meets all stringent environmental requirements. Additional anti-corrosion initiatives have also been implemented to enhance and increase the longevity of the new ARGO.

Stand out with ARGO's **new Orange color** – ideal for first responders and EMS personnel.

The **new 12V / USB Power Outlet** allows riders to charge phones, play digital media and utilize their GPS.

**Ride-friendly seating** features upgraded cushions and backrest with refined stitching and custom embossing of the ARGO logo.

The **new entry step** on all models makes getting in and out of the vehicle easier than ever. (Not applicable to 8x8 XT models).

ARGO has launched a **new Olive Grey** color scheme to give riders more choice than ever before.

- **ARGO Outfitter** – Just in time for the kick off of the Fall hunting season, this new vehicle is unlike any other vehicle we've ever released and is a hunter's dream come true. Designed to meet the specifications of hunt camp operators, lodge owners, and big game guides who traverse the world's toughest terrain, our new ARGO Outfitter includes the following as standard equipment:
  - Upgraded front and rear seat cushions as well as a new high back front seat backrest pad featuring refined stitching and custom embossing of the ARGO logo
  - Angle mounted four gun Sure Grip gun rack to ensure the safe transportation of weapons to the best hunting grounds
  - Removable Hood Rack capable of carrying cargo and small game out of the bush
  - Enhanced Brushguard provides outstanding protection for the front end of the vehicle, absorbing impacts from off-road hazards such as brush, branches, and more
  - Dual rear entry step to assist in vehicle entry and exit when outfitted with gear, backpack and guns
  - Heated Hand Grips for both passenger and driver for those cold, longer days out in the bush
  - USB Power Outlet, for riders to charge their phones, play music and utilize their GPS
  - Enhanced lighting package featuring dual high powered front LED headlamps and floodlights
  - Interior lighting package to illuminate front driving area, gun rack, entry step and vehicle console
  - 12-inch handrails for extra cargo storage
  - Dual bilge pumps
